Top Technical Features

Easy Arch 3D

Automated light weight parametric design plugin for 3D buildings, Interior and Exterior designs. Switch from 2D to 3D and vice-versa in one click.

PDF to DWG

Convert Vector PDF files to editable DWG files with one click. Layers support also included.

Raster to Vector Conversion

ProgeCAD includes WinTopo raster to vector tool to convert images to vector DXF format.

ProgeCAD Cloud

Cloud makes it easy for you to reach any of your drawings wherever you are. ProgeCAD supports One Drive, Google Drive & Drop Box. Open and save your drawings to these drives directly from ProgeCAD.

3D PDF Export

Convert your DWG/DXF to 3D PDF format just with one click. Open 3D PDF file in Free Adobe Reader.

Google Earth Integration

Export your models to Google Earth. Capture images to ProgeCAD directly from Google Earth.

Traceparts and Cadenas

iCADLib integrates progeCAD's Traceparts and Cadenas web portals for easy-guided usage of more than 100 million blocks. Directly guided block insertion from web to your drawings just in one click.

iCADLib Module

More than 25,000 2D/3D blocks (Construction, Architectural, ANSHSO and DIN-ISO Mechanical, ANSI and IEC Electrical, Electronic, Steel Profiles, Furniture, Kitchen, ISO 1219, UNI 6861).

Additional Features

Supports DWG & DXF file formats from v.2.5 to v.2016

Similar commands, Icons & Aliases Like AutoCAD®

Publish command for batch plotting and DWF creation

Supports .mnu, .mns and .scr files

Excel Tables and OLE support with Objects Snaps

PDF Import & Export

ProgeCAD explorer for Layers, Blocks and Line types

Dynamic Block Editing

Layer manager (save and restore layers configurations)

PDF, DGN & DWF underlay

Express Tools with many additional commands

Selection highlight when the cursor rolls-over the objects

Blocks Export & Battman (local editing of block attributes)

Dynamic UCS & UCS II Toolbar

Gradient Hatch support

Hatch trim, editing, clipping

Quick Dimensioning

Annotative Objects

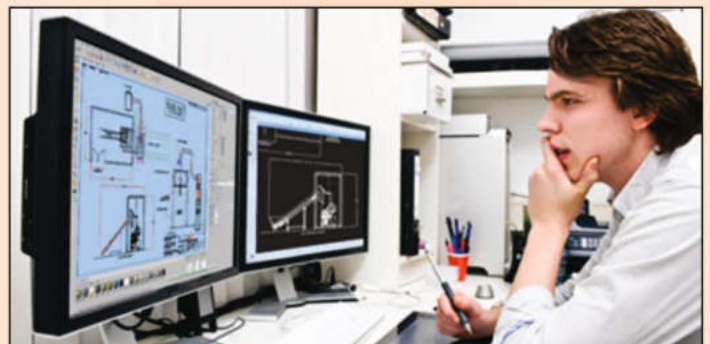

Customization (VBA, SDC/ADC C++, LISP, DCL & COM)

DGN Import

Collada (DAE) Export

SOLPROF & FLATSHOT Commands

AEC objects support

System Requirements

1. **OS:** Supports XP, Vista, 7, 8 & 10 (32bit/64bit)
2. **Processor:** Any processor above 2GHz speed
3. **RAM:** 3 GB or above
4. **Dedicated Graphics Card:** 1GB or above preferred
5. **OpenGL:** 2.0 or above
